

**1**

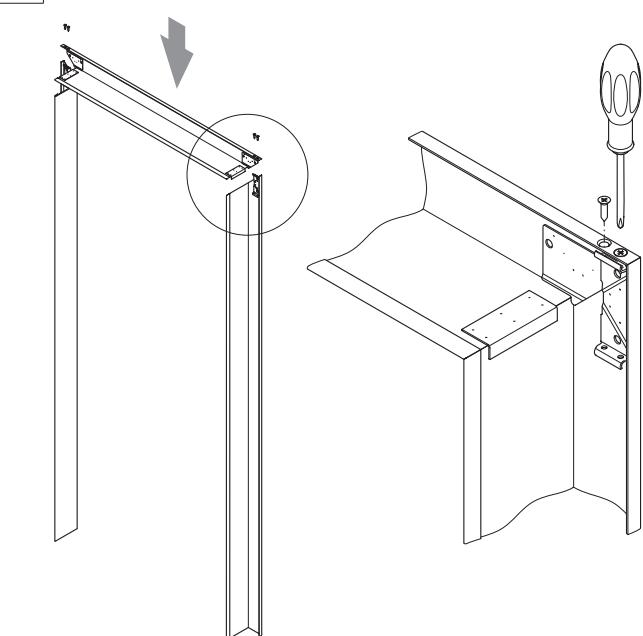

IT: Verificare che le dimensioni della porta e dell'imbotte corrispondano. Controllare lo spessore del muro.

GB: Verify the correspondence between the measure of the door and the frame extension. Control the wall thickness.

FR: Vérifier la correspondance entre les dimensions de la porte et de l'habillage. Contrôler l'épaisseur du mur.

**2**

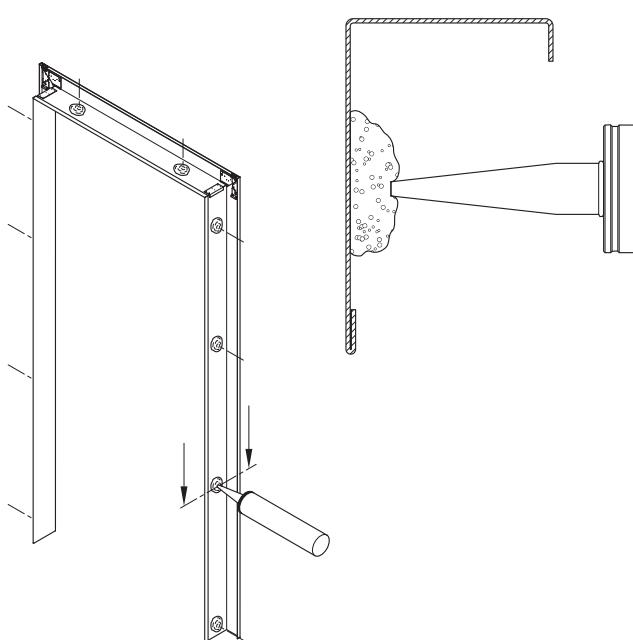

IT: Sballare e assemblare l'imbotte utilizzando le viti autofilettanti in dotazione ( $\varnothing 4,8 \times 19$  mm).

GB: Unpack and assemble the frame extension by using the supplied self tapping screws ( $\varnothing 4,8 \times 19$  mm).

FR: Déballer et assembler l'habillage en utilisant les vis autotaraudeuses fournies ( $\varnothing 4,8 \times 19$  mm).

**3**

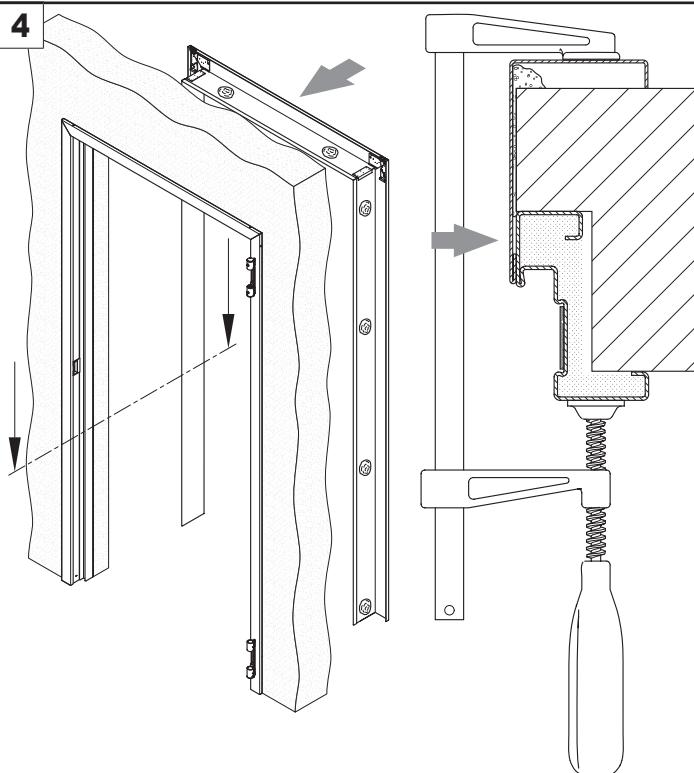

IT: Applicare alcuni punti di silicone o, nel caso di porta multiuso, di schiuma poliuretanica (non forniti) sulla parte interna dell'imbotte.

GB: Apply some points of silicone or, in case of multipurpose door, polyurethane foam (not supplied) at the internal side of the frame extension.

FR: Appliquer des points de silicone ou, en cas de porte multiusage, de mousse polyuréthane (non fournis) sur la face intérieure de l'habillage.

**4**

IT: Premere bene l'imbotte contro il muro e contro il telaio della porta Proget fino a che il fissaggio diventi solido.

GB: Push the frame extension against the wall and against the Proget door-frame until the fastening become solid.

FR: Bien presser l'habillage sur le mur et contre le dormant de la porte Proget jusqu'à ce que la fixation sera bien durcie.
